JABIL

Industrial & Medical	Enterprise & Infrastructure	Consumer
   <p>JOHN DEERE</p>   <p>EMERSON</p>  <p>NEC</p>    	    <p>Alcatel-Lucent</p>      	           

Supply Chain Thoughts

- Nypro supply chain - combination of centralized and decentralized (by plant, by GBU)
- We have a number of different businesses and capabilities (sell into the ones that fit your own core competencies)
- Help us deliver differentiated solutions to our customers
 - Technology
 - Unique offerings
 - Price competitiveness
- Healthcare supply chain solutions- need for strong regulatory and quality system capability
- Future requirements for our suppliers include all of the above plus need to scale given our pending Jabil transaction

Thank you
